

Duraflex - Hyppylaudat

DURAFLEX 14 ft, DURAFLEX 16 ft,

Made from a one piece ribbed extrusion of aluminum alloy (6070-T6) with 8 ribs and torsion-box extrusion for stabilization. Tapered from the fulcrum area to the diving-tip. Yield strength: 50.000 psi. Shielded from corrosion by thermal curing epoxy resin. Non-slip surface on topside. Rubber channels in the area of adjustability of the roller

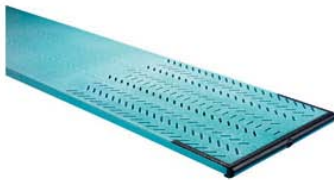

DURAFLEX Maxi-B 14 ft

as DURAFLEX, additionally tapered from fulcrum area to the anchor end - increased flexibility, has slots (189 pcs.) in the metal of the top "skin" of the diving tip wich reduces the weight of the tip-end.

Length: 488 cm,
Width: 49,5 cm

Used for: competition board in accordance with FINA-rules, exclusively used for all Olympic Games as well as national and international competitions world-wide
