

P113 RIGID GRATINGS

Material

High density polyethylene ([Eltex URA/82](#)) with high resistance to light, other atmospheric agents and to acid. All pool hygiene chemicals can safely be used with these gratings.

Colour

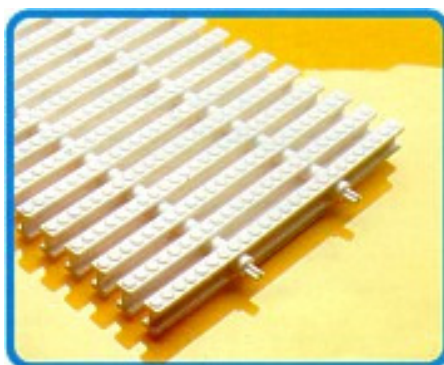

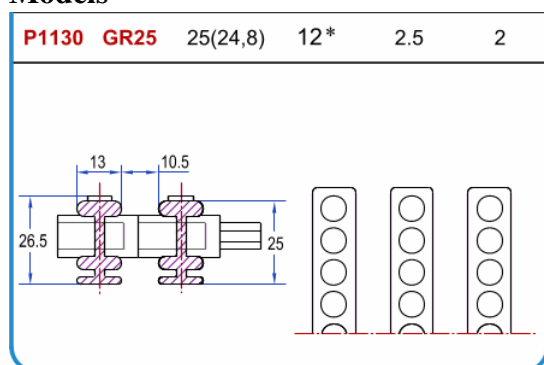

RAL 9003 white. Other colours are available to specification (fixed tooling charge).

Thickness

Grating thickness can be reduced with surcharge.

Corners: The most widespread types of gratings come with relevant angular sections. Do ask for the proper technical sheet.

Models

P1130/A Mod. GR/25 rigid grating; width mm. 250 x thickness mm. 25
