

AUTODOS 4000 pH, FREE CHLORINE AND REDOX

Item no. 4161408

Autodos 4000 has three measuring units and measures pH, free chlorine and redox.

- **Digital control and display** - Easy to handle and adjust.
- **Flow cell made of plexiglass** - Convenient flow control.
- **Alarm** - Warns in the event of any deviation from the programmed settings.
- **Everything fitted to one control panel** - Easy to overview and handle.
- **Code lock** - Prevents unauthorized changing of the settings.
- **PC communication (option)** - Easy to overview and store information via a PC.
- **Tested and certified by a Notified Body** - Important for product safety.

Complete systems

Item no.

- 4161408 Autodos 4000 for pH, redox and free chlorine with PB100 unit
- 4161410 Autodos 4000 for pH, redox and free chlorine with Prominent measurement CLE3

Option

Autologger

Item no. 41625

- 32 kB EEPROM
- Real time clock
- 24 kB (4500 values) with average values per minute for 4 channels
- 8 kB events (255 pcs) e.g. alarm or calibration

Communication module

Item no. 41620

- RS232-communication to PC, cables included
- Two-wire communication to Autodos
- External transformer 9VAC for voltage supply
